

FERRETTI 881

Comfort & Sport

FERRETTI 881 offers dimensions and spaces quite similar to the yachts of 100" and over. With her bright, contemporary and elegant feel she offers unrivalled style and comfort.

The light and airy saloon generously spacious with the two facing divans, the beautiful and well separate dining area with his large square table, the soft colour of the furniture and of the wooden floor, make this living area truly impressive. The stern divan and table extend outside the warm and cosy atmosphere of the Boat.

The striking full beam master stateroom , with two large panoramic windows, offers gorgeous en suite facilities with a unique glass divider between the cabin and the en suite with double shower and large bath

The VIP cabin, with his large double bed, is roomy and comfortable.

The matching en suite twin cabins, both with Pullman beds completes at best the sleeping accommodation.
